Jayne,

I have reservations about responding to this letter, but as your OD has made this decision, my comments are attached. I don't want to invite quid pro quo responses because attempting to keep up with Nina's prodigious output will deter us from our many obligations. beyond this, I can't help but wonder if the video clip she sent us points to an enforcement issue. Is it really legal for manure to be applied to fields planted in tidal zones? For that matter, is it even legal for crops to be grown in tidal zones? How do we know the farmer wasn't fined for this violation? Passing tougher state requirements to control ag runoff is one thing. Enforcement is quite another matter.

I have copied our Ag person for CZARA (Katie Flahive) and am inviting her input on this draft response, as well.
